Winter Rules

From 1st December 2015 until the 1st March 2016, all members and visitors to South Staffs Golf Club who wish to use either a pull trolley or electric trolley will be required to have winter wheels fitted to their trolley. Trolleys will not be allowed on the course without them. This is to protect the course during the wetter time of year when a lot of damage can be caused through the use of standard wheels. We hope you understand this requirement. Should your trolley not be fitted with suitable winter wheels, the Pro Shop will have winter wheels to purchase, and will fit them for you, or alternatively there are both pull trolleys and electric trolleys already fitted with winter wheels available for hire.

Buggies (except for registered members and subject to conditions) will not be allowed on the course 1st December - 1st March.
