

# GOLF LESSONS

Thanks to the versatile Foresight GC2 Software, lessons can now be conducted in warm, dry and comfortable conditions, in the Swing Studio or taken to the practice area, giving you the opportunity to improve your game all year round.

With so much information available on each and every swing, including clubhead speed, ball speed, spin rates and distance, you are able to see clearly where your game needs work.

There are a wide range of packages available to suit all abilities and budgets
