

Match Report Senior Ladies vs Warwickshire Vets

West Midlands Golf Club 19th July 2018

This colonial style club house greets you after a long road which takes you further into the countryside, you wonder where you are going after such a long journey to get there! Very reminiscent of Deep South USA and apparently the history of the course build is steeped in these roots.

The very hot summer continued and it was no different on this day. In the back ground the Open was playing out on the big screen. The views looked inviting and everyone was happy to be playing what looked to be an interesting course. None of the Warwickshire team were members although they had all played it there appeared to be no home advantage!

The match was played in the tradition of the game, off scratch and the Warwickshire Vets had brought their A team for the day obviously not happy with the previous 6 years results! This was the one they wanted, it was very plain to see! They were very happy to obtain that win, a resounding 6-2: a disappointing loss for Derbyshire but it's not always about the result as the day was played in Great Spirit with 5 of the matches going down to the wire so very close. The finishing hole was a lovely par 3 over water, even those who had lost continued to play just to have this challenge.

Thank you to all the team.
