CSiSites™

The Complete Club Marketing Package

The complete club marketing package linking to the range of Club Systems products.

What are CSI sites?

Club Systems can now offer a first class, professionally designed website which integrates with your club software. If you use the market leading CLUBV1 Membership and Handicapping system, then your membership and handicap lists, competition results summary, course analysis and diary can all be visible on your clubs site, automatically. Content is also something not to be overlooked, and is your chance to sell your club when your visitors have been drawn to investigate further. With CSI SItes you are in control and have the ability to manage your own pages with your text and pictures.

No computer skills are required to manage your golf clubs website and the clubs membership data is seamlessly streamed to our secure servers where we can host your site for less money than many companies charge for a basic templated website.
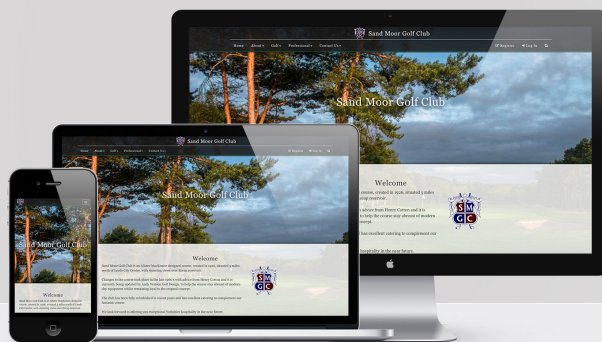

Responsive Websites

CSI Sites utlise the latest responsive technology allowing CSI websites to automatically adjust to any size screen. A responsive website will work seamlessly on any mobile device, tablet, laptop, or desktop screen and is designed to adjust to meet the user's needs. According to recent reports, roughly 56%* of consumer traffic to websites now comes from mobile devices.

CSiHub - integrates with 3rd party websites

The CSiHub is a mini site with a secured area containing member information which is automatically updated. Members can log in through the ultra-secure HDID Passport and view the following features:

- Membership list and all contact details
- Full Men's and Ladies handicap lists
- Competition results summaries from HowDidiDo
- Course analysis from HowDidiDo
- Current handicap details and recent graph
- Members card balances and recent transactions
- All behind a secure registration and login process

THE CSI PACKAGE INCLUDES:

- Full integration with all CLUBV1 modules - including Membership, Handicaps, MerlinTouch, BRS Booking and HowDidiDo®
- Unlimited custom web pages - Create pages that show off your club and its facilities
- Streamed Competition Results Summary – Automatically uploaded and powered by HowDidiDo
- Statistical Course Analysis – Show live course stats, powered by HowDidiDo
- Integrated Diary - Will merge and display current and closed competitions from CLUBV1, BRS Bookings, Club News, Google® Calendar and more
- Members' Private Area – Allow members to register using auto-verification linked to CLUBV1 Membership.
- Members' only pages - Select pages that require a member log in
- Membership Lists - With privacy options, members can select which personal details to display
- Members' Card History & Balance – Allow members to see recent transactions and balance on Bar Account
- Easy News Articles - Sharing news with HowDidiDo, PSiBoard and our Marketing Module
- Integrated Maps - Powered by GoogleMaps
- Course Status - Updated from a mobile phone by any of your staff to inform golfers of the course conditions
- Full Site Visitor Statistics – Fully integrated with Google® Analytics, see what's popular on your site
- BRS Booking - Full Integration with BRS allowing Members and Visitors to book times.
- Low set up costs and one of the lowest annual hosting and support fees in the business

Experience the versatility of **CSiSites™** in YOUR club
