## Club Favourites

### **Bulldog London Dry Gin**

Bulldog London dry gin has the exotic botanicals and high quality ingredients combined with the quadruple distillation process allow it to defy convention with a balanced flavour and crisp finish. A delicious English gin made with poppy, dragon eye, lotus leaves, citrus, almond, lavender and various other botanicals

### **The King of Soho**

Created as a tribute to the original 'King of Soho' Paul Raymond by his son Howard. At 42% ABV this super premium gin is bespoke, smooth and full-bodied; soft juniper, coriander, with a high presence of citrus botanicals including grapefruit peel, balanced by angelica root and cassia.

### **Sipsmith London Gin**

One for the discerning spirit sipper, this is the quintessential expression of a classic London Dry gin, handcrafted the way all great gin used to be. Bold, complex and aromatic, with a wonderfully smooth balance of bright juniper, fresh citrus, and a long dry finish: smooth enough for a stunningly civilised Martini, but rich and balanced enough for the perfect G&T.

**All served with Fever Tree Tonic Water, Ice and A slice of lemon, lime, orange or cucumber**

## Something Different

### **Ophir Oriental Spiced Gin**

Ophir Oriental Spiced Gin has bursts of Citrus balanced with the rich, earthy aromas and a soft spice. Ophir epitomises the exotic intensity of the Orient, awakening the senses to a new style of gin.

### **Gin Mare**

Gin Mare has long been the reference point for a gin that's pushed the boundary of what a gin could taste like, with rosemary, thyme, olive, and basil included in the botanical line up. It's savoury and unusual, balanced and complex. It's also a Spanish Gin made in Spain, something that in due time will help it to establish itself firmly in one of the world's biggest Gin markets.

Made in the small Spanish fishing town of Vilanova, just outside the city of Barcelona, Gin Mare epitomises the Mediterranean spirit

### **Brockmans**

Brockmans unique infusion of exquisite botanicals creates a seductively smooth and well balanced gin with the warming character of blackberries.

### **Monkey 47**

An unusual gin from the Black Forest in Germany, Monkey 47 contains a unique ingredient. Cranberries! The 47 comes from the number of botanicals that go into this unique gin, and the fact it's bottled at a healthy 47%.

### **Sharish Blue Magic**

A bright blue Portuguese gin from the Sharish range - the magnificent colour comes from extracts of a flower known as blue pea, and when you mix the gin with tonic, it turns pink! Botanicals also include juniper, coriander, angelica root, ginger, cinnamon, cardamom, lemon peel, strawberry and raspberry.

## Old Favourites

### **Hendricks Gin**

Meet the delightfully curious Hendrick's Gin. Life is too glorious not to experience its peculiar flavour, infused with rose & cucumber in its Scottish distillery

### **Bombay Sapphire Gin**

Bombay Sapphire is one of the few gins that has transcended the category, perhaps even helping to elevate it out of the doldrums and into great prominence again. With its iconic blue bottle it is easily one of the world's most recognised spirits, and can be found in bars across the world. Launched in 1987 and distributed by Bacardi, Bombay is based on one of the earliest recorded recipes for a premium quality London Dry gin.

### **Edinburgh Premium Gin**

A classic London Dry style gin. A clean, zesty, juniper-forward gin which balances softness with bright citrus. Launched in 2010, this is our modern London Dry gin, with a nod to Scotland in its recipe including native plants and botanicals.

A unique blend of thirteen botanicals includes lavender, pine buds, mulberries and cobnuts. Lemongrass and lime peel contribute lively citrus notes. Created by hand in our West End and Leith distilleries, this is a delightfully crisp gin with a distinctively smooth finish.

### **Tanqueray No. 10 Gin**

A super-premium small-batch Tanqueray gin named after the No.10 still in which it is made. A superbly controlled explosion of botanical flavours, with much more citrus character than its Export Strength cousin.
