

St. Michael's Hospice

St. Michael's Hospice is a registered charity in North Hampshire that provides support to local people who are suffering with life-limiting illness. It is a Hospice for adults providing specialist palliative care both on the in-patient unit at the Hospice and in people's homes. Our aim is to work with patients to ensure they can achieve the best quality of life for the time they have left.

As a charity the care is provided to patients and their families free of charge. The Hospice needs to generate around £4.2 million from fundraising, retail and lottery activities in the local community.
