THE GLAMORGANSHIRE GOLF CLUB

Croeso i Glwb Golff Sir Morgannwg

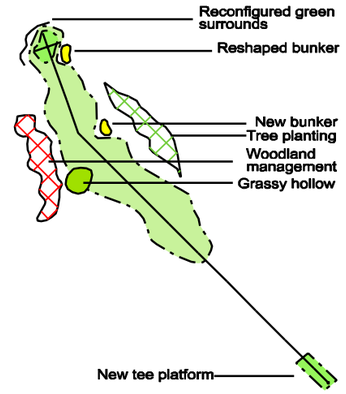
Remodel 3 no. greenside bunkers with grassy hollows/runoffs

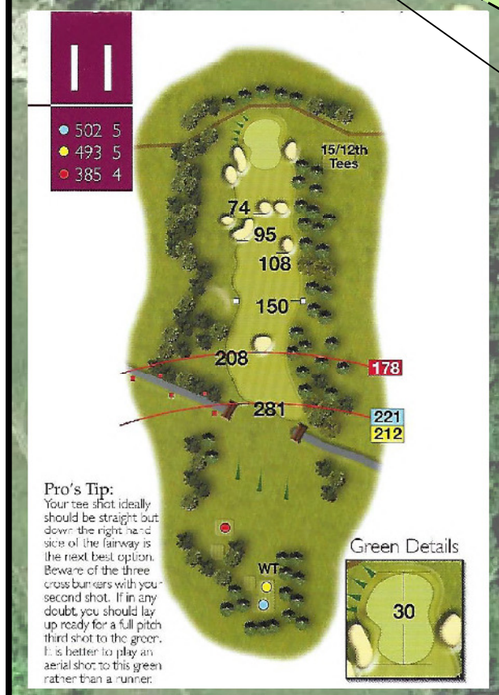
Remodel and raise 1 no. fairway bunker

Remodel 3 no. fairway bunkers as shallow grassy hollows

Build 1 no. new greenside bunker

Legend:





Hole #11 502/493/385 yards, par 5 SI 8/4

- Although the tee shot is semi-blind here, the longer view is the countryside beyond.
- There are 2 tee locations, the one on the left gives a better view, but seems squeezed into the trees on the left.
- The fairway is tree-lined and falls steeply on the carry area to a landing area with no bunkers (there used to be one in the middle of the fairway, thankfully, now removed, which is acceptable, given the blind tee shot.
- The fairway suffers from poor drainage and need attention.
- The hole becomes more interesting as you get closer to the green, with randomly of an obstruction, than a strategic hazard.
- The greenside bunkers seem oddly placed and are in need of rationalisation and repositioning to make the approach shot more challenging.
