- 4. If any of the tees are showing no yardages check they've entered them in ClubV1 when setting up the course. You've then got to re-publish a competition in ClubV1 using that tee to publish the yardages. Either re-publish an old comp or setup a new competition for this purpose. (Check with the club first as whoever you are entering a score for will get an alert)
- 5. The pre-populated courses page on the website then needs deleting and re-adding and it should show all the yardages and tee colours correctly as below.
