PRIORITY ON THE COURSE

The Club Captain has priority at all times.

Competitors in Club Competitions have priority over all other matches.

On weekdays two-ball matches have preference over three and four-ball matches but all matches have equal standing on Saturdays and Sundays.

All members of a four, three or two-ball match must be on the first tee before their match has any standing.

If a match fails to keep its place on the course and loses more than one clear hole on the players in front, it should allow the match following to pass.

CONSIDERATION FOR OTHER PLAYERS

No player should play until the players in front are out of range.

In the interest of all, players should play without delay.

Players searching for a ball should signal the players behind them to pass as soon as it becomes apparent that the ball will not be easily found; they should not search for the allowed **THREE** minutes before doing so. They should not continue play until the players following them have passed and are out of range.

When the play of a hole has been completed, players should immediately leave the putting green. Players in competitions should not mark cards until they have left the green.

CARE OF THE COURSE

HOLES IN BUNKERS: Before leaving bunkers, players should carefully fill in and smooth over all holes and footprints made by them.

RESTORE DIVOTS AND PLUG MARKS: Through the green, players should ensure that any turf cut or displaced by them is replaced at once and pressed down, and that any damage to the putting green made by the ball or the player is carefully repaired.

DAMAGE TO THE GREEN: Flagsticks, Bags, etc.: Players should ensure that, when putting down bags (near the green), or the flagstick, no damage is done to the putting green and that neither they nor their caddies damage the hole by standing close to it, handling the flagstick or in removing the ball from the hole. The flagstick should be properly replaced in the hole before the players leave the putting green.

DAMAGE THROUGH PRACTICE SWINGS: In taking practice swings players should avoid causing damage to the course, particularly the tees, by removing divot.

BUGGIES: Must be driven giving due care and attention to the course. **OBSERVE** all markings on the course and drive in the rough as much as possible. Wet areas **SHOULD** be avoided.
